

Customizing Efficient Elements for presentations

While the standard edition of Efficient Elements for presentations will save you time and nerves when working with Microsoft PowerPoint, we would like to go one step further and give your productivity an extra push.

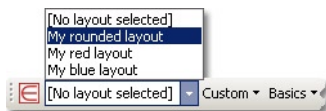

By customizing your copy of Efficient Elements for presentation to your company's specific needs, you will be able to have frequently used templates and slide elements available at the click of a button.

What we can customize for you

- Add individual slide elements according to your needs (org chart, reporting template, agenda template, etc.)
- Customize menu structure (e.g. to fit in your additional slide elements)

- Adjust shape, size and color of slide elements
- Adjust positioning of elements on slides
- Customize bullet point symbols - define shape, size and color for each level
- Customize font, font size, font color, ...
- Add layout variants (e.g. rounded boxes, several color schemes, with or without border)

What we need from you

- Your corporate powerpoint template (*.pot file) and style guide (if existent)
- All additional slide elements that you wish to include in the Slide Wizard
- Your company's and/or customer's logo(s)

Your company does not have a corporate layout?

No problem, we are happy to create your individual style guide and implement it in Efficient Elements for presentations.

Pricing

Please contact us at info@efficient-elements.com if you are interested in having Efficient Elements for presentations customized to your company's specific needs.

We will then get in contact with you to discuss the details. As soon as we have understood what your specific needs are, we will send you a quote.
